UOP TODAY

by Harrell Lynn

UOP Welcomes New Faculty

Fourteen new faculty members and three visiting professors are teaching at UOP this semester.

Visiting faculty are Jianmin Ding, from Hangzhou University in China, who is teaching Chinese in the Modern Language/Literature Department; Kenneth Seiden, from the University of Oregon, who is teaching economics, and Jessie Kobayashi, Berryessa Union School District Superintendent of Schools, who is teaching in the School of Education.

New faculty members for the College of the Pacific are Scott Eckern, assistant professor in the Drama/Dance Department, who earned his M.A. from Brigham Young University; Charles Neilsen, assistant professor of computer science, who received his M.S. from University of Southern California; Timothy Opiela, assistant professor of economics, who earned his B.A. from California State University, Sacramento, and Peter Meyer, associate professor of economics, who received his Ph.D. from University of California, Berkeley.

Newest faculty member of the Conservatory of Music is assistant professor and director of bands Robert Halseth, who earned his Doctor of Arts at University of Northern Colorado.

The School of Education welcomes Marilyn Draheim, assistant professor and director of the Academic Skills Center, who received her Ph.D. from University of California, Berkeley, and Jack McKay, associate professor, who earned his Ed.D. from Washington State University.

Joining the School of Engineering faculty are Qi Bi, assistant professor, who earned his M.S. from Shanghai Jiao Tong University in China; William Park, assistant professor, who received his Ph.D. from Clemson University, and Said Shakerin, assistant professor, who earned his Ph.D. from Colorado State University.

New to the School of Pharmacy is David McWaters, assistant professor of clinical pharmacy, who earned his Pharm. D. from University of California, San Francisco.

The physical therapy graduate program is new this semester and its faculty members include Marlene Appley, associate professor, who earned her Ph.D. from University of Oklahoma Medical School, Elaine Driskell, lecturer, who earned her B.S. from California State University, Fresno, and Kathleen Lewis, assistant professor, who earned her M.S. from University of Southern California and her J.D. from Washburn Law School.

Pharmacy Lecture Series

Dr. Jerry P. Lewis, professor of medicine and pathology at the University of California Davis School of Medicine, discussed "The Role of Oncogenes in the Initiation of Cancer" at the first annual Warren J. Schneider Memorial Lecture on Oct. 24 at the School of Pharmacy.

The Schneider lecture series was endowed in July 1986 to support a yearly presentation by a prominent scientist in the area of cancer, virology or immunology research.

The lecture series honors the late Warren J. Schneider, faculty member and administrator at the School of Pharmacy from 1972 to 1984. Prior to his appointment as assistant dean and, later, as dean of the School of Pharmacy, Dr. Schneider served as director of graduate studies and research at UOP.

Miller Named to Two Olympic Committees

Dr. Carl Miller, athletic director and chairman of the physical education department, has been appointed to two United States Olympic Committees.

Dr. Miller was selected in October to the United States Olympic Committee/United States College Sports Council Joint Committee and the USCSC Executive Committee. These committees are the major decision-making bodies for the Pan American and World University Games.

In addition, Miller was recently selected as president of the National Association of College Directors of Athletics. Currently first vice president, Miller will begin his presidential term in 1987. The UOP administrator is also a member of the NCAA Television Committee.

Dr. Spock Visits UOP

Dr. Benjamin Spock, the noted baby doctor credited with raising several generations of American children, spoke recently to students in two UOP public relations classes.

Dr. Spock discussed his widely influential book, "Baby and Child Care," which is second only to the Bible in sales since it was first published in 1943. His other remarks ranged from modern-day childrearing to the nuclear arms race.

Mary Morgan, Spock's wife, also talked to the students. The couple's daughter, Virginia, a UOP student, was in the audience.

Media Workshop a Big Success

UOP's Communication Department held a successful Media Day '86 on Oct. 18 in the University Center.

High school students and advisers throughout California attended the one-day workshop, which provided hands-on experience in the journalism field. Specialized professionals taught sessions on news, feature and editorial writing, graphics, broadcasting, public relations, cartooning and photography.

Students also attended one of

three press conferences: "The Aids Initiative," "Crack" and the Drug Scene" and "Free Speech and First Amendment Rights."

UOP Receives PG&E Rebate for Conservation

Pacific Gas and Electric Company recently presented UOP with a rebate totaling more than \$83,000 in recognition of the University's successful campus energy management project.

The rebate check, made possible through PG&E's Customized Rebate Program, was presented to UOP President Stanley E. McCaffrey and Ross Morton, director of physical plant. Making the presentation in Dr. McCaffrey's office were Ron Girard, manager of PG&E's Stockton Division, and Brian Hitson, PG&E's energy management representative in Stockton.

The energy project is saving the University an estimated \$56,000 a year in reduced electricity consumption, according to Morton. The computer-operated energy management system was installed in 1986 to control campus heating, ventilation, air conditioning and lighting. It is estimated that the system reduces the university's electric consumption by 690,000 kilowatt-hours a year.

Alumnus Part of Computer Revolution

L. Eugene Root, class of '32, was recently cited for his contributions to the "computer revolution" in the newly published book: *Portraits of Success: Impressions of Silicon Valley Pioneers*.

Carolyn Caddes, author of the book, describes Root as one of the "distinguished entrepreneurs and innovators responsible for today's computer revolution." He was instrumental in bringing the missile and space business to the Silicon Valley after World War II. In 1953, he joined Lockheed Aircraft Corporation and established the company's missile and space program.

Root moved to Sunnyvale in 1957 to supervise the building of a Lockheed plant. In 1961, he became president of Lockheed Missiles and Space Company, which is still the largest employer in the Silicon Valley. Now retired, he and his wife Beryl live in Menlo Park.

New Chemistry Labs Open

The chemistry department, putting the finishing touches on its relocation from Weber Hall, has completed construction of three laboratories on the second floor of the Chemistry building (located next to the Classroom Building in the southeast area of the campus).

The second floor additions also include a fourth laboratory (nearing completion), three instrument rooms, one classroom and a small dispensing stockroom. According to Dr. Pat Jones, chairman of the chemistry department, the additions have allowed the department to consolidate its undergraduate teaching areas into one building. "We hope to move our faculty offices from Weber to this building in the near future," adds Dr. Jones.

The new laboratories were made possible through donations totaling \$705,000 from four organizations: The William Keck Foundation, the Irwin Foundation, the Hearst Foundation, and the S.H. Cowell Foundation.

A student moves chemistry equipment from Weber Hall.

Three of the four new chemistry labs are complete.

People!

Four UOP faculty members have recently written articles appearing in national publications:

School of Education professor **Judith Van Hoorn** co-edited the book "Growing Up Scared? The Psychological Effects of the Nuclear Threat on Children."

The book is based on the findings of a conference at the University of California, Berkeley in December, 1984 which examined the effects of the increasing nuclear war threat on children. Van Hoorn co-authored two sections: "Facing the Nuclear Threat" and "Children, Adolescents and the Threat of Nuclear War."

Sociology professor **R. Eugene Rice** authored "Those Who Gladly Serve," the lead article for the July-August issue of *Change* magazine. The article, based on responses from 322 university presidents, examines the driving force behind 50 university faculty who have been recognized for their contributions to higher education.

"A Children's Story," written by School of Education professor **Carole Urzua**, was published in "Children and ESL: Integrated Perspectives," a textbook for college students who want to teach English as a second language.

Pat Catania, department of Clinical Pharmacy and Pharmacy Administration, co-edited the book "Home Health Care Practice." According to Catania, this is the first publication to relate the practice of pharmacy to the home health care setting.

John Richards, a UOP graduate student, recently amassed a three-day winnings total of \$1,595 on the "Wheel of Fortune" television game show.

Fay Haisley, dean of the School of Education, was elected to a three-year term on the board of directors of the Far West Laboratory for Educational Research and Development.

Doyle Minden, director of public relations, has been elected secretary of the Oakland-East Bay Chapter of the Public Relations Society of America. The chapter includes public relations executives from business, industry and agencies located in the East Bay Area.

Jerry Hewitt, professor of political science and philosophy, was a panelist for the 14th and 18th District Congressional debates held in October. The debates, which focused on security and foreign policy issues, were televised live in Stockton, Sacramento and Fresno.

Kevin R. Culhane, adjunct professor, McGeorge School of Law, was elected in August to a three-year term on the State Bar of California Board of Governors. Professor Culhane represents 14 central and coastal California counties, and he is the youngest individual ever to be elected to the State Bar Board of Governors.

Museum for Early UOP Radio

Recordings of programs produced during the early days of radio at the University of the Pacific (1930s-1950s) may become part of the history of broadcasting, according to UOP alumnus **Ralph Guild**, president of INTEREP, a New York-based radio sales organization.

Guild, a member of the Board of Directors of the National Museum of Radio, requests that anyone having UOP recordings should submit them for permanent preservation in the museum. UOP, then known as the College of the Pacific, was a pioneer in broadcasting and operated one of the first campus radio stations in the Western United States.

Persons who have recordings or wish additional information should contact the project's co-director, **John Crabbe**, 1031 La Sierra Drive, Sacramento, CA 95864 (telephone: 916-489-1911).

SBPA Celebrates 10th Anniversary

The 10th anniversary of the founding of the School of Business and Public Administration is being observed throughout the current academic year.

Bay Area alumni of the School started the observance with a party in San Francisco in September. Stockton area alumni will complete the celebration with a spring event that is expected to feature a prominent speaker.

In October, a seminar for local business leaders was conducted by the School and was underwritten by its Advisory Board. The Advisory Board also is underwriting the production of a publication that features the SBPA faculty.

Scheduled for next spring is a publication titled "Ten Years of Excellence: The Strategic Plan that Worked." Included will be an article by Dr. James Howell of Stanford,

New Pharmacy Clinical Program

The School of Pharmacy has unveiled its innovative clinical experience program which allows pharmacy students to spend their final academic year gaining practical knowledge at one of 50 pharmacy sites in the western United States.

The program began in August with 103 seniors participating. According to Pharmacy Externship Director Dr. Jeff Jellin, the new program is an improved combination of the school's previous experiential system.

"Under the old plan," explains Dr. Jellin, "students served a one-semester externship in a community pharmacy/hospital setting during their fourth, fifth or sixth semester, then served their clinical clerkship in their seventh or eighth semester. The new system combines both these programs into one 36-week training period to be taken in the students' final year."

A major advantage of the new plan, says Jellin, is the variety of regions (nine) from which the students can choose, including Los Angeles, San Diego and Honolulu.

Another positive dimension involves the practical experience available to the students. The students serve six six-week "rotations," four of which are required: Internal Medicine, Ambulatory Care, Community Pharmacy Practice and Hospital Pharmacy Practice.

Jellin says the ambulatory care offering is unique to California pharmacy schools. "Ambulatory care, which involves home care and overnight surgeries, is a rapidly expanding health area and represents an innovative step for pharmacy education, especially in California."

A further plus involves the elective status of the other two rotations. Students can choose from 20 categories, ranging from neurology and oncology (cancer) to pediatrics and poison control. "These elective rotations allow the students to keep up with the innovations occurring in the profession," says Jellin.

"This program is going to provide a far better education for our students and produce a superior quality product," he adds. "The profession in California is clamoring for more good pharmacists and this is going to help meet this need."

who conducted the feasibility study that led to the formation of the School in 1977. Dean **Elliot Kline**, the School's first and only dean, will discuss plans for the future, and members of the faculty will provide additional articles.

Present plans also call for completion by next spring of "at least a portion" of the first floor of Weber Hall that will house an executive training center. Faculty offices and classrooms already are located on the second floor of Weber Hall, which has been totally remodeled following the relocation of science programs to the South Campus.

Commencement ceremonies also will be included in the celebration, with the inauguration of a new "Thanks A Brunch" post-ceremony party in the Alex G. Spanos Center for graduates and their families.

The new school was formally approved by the Board of Regents on March 8, 1977 and was formed from the Department of Business within College of the Pacific. Enrollment during the past decade has grown from 260 to more than 600 students.

Just five years after its formation, the school was fully accredited by the American Assembly of the Collegiate Schools of Business, an accomplishment that seldom has been duplicated.

New SBPA Board Members

Eleven new members have been elected to the School of Business and Public Administration's Advisory Board. The 27-member board, founded in 1978, assists and advises the dean of SBPA in matters pertaining to the school and community activities.

The board, which was instrumental in the school's accreditation process in 1983, also sponsors seminars and actively participates in introducing the school to the community.

New board members are: Bruce

Bloom, Anthony Bova, Ron Girard, Al Lane, Ort J. Lofthus, Rick Paulsen, Kevin Shea, Thomas Shepard, D. David Smith, George Tabuchi and Elizabeth Yost.

The new electees join members Darold L. Barnes, Stuart Bewley, Albert G. Boyce, Jr., Michael Burns, Cy Cochran, Robert J. Corkern, Richard B. Dunn, Douglass Eberhardt, Robert W. Foy, Dorothy Indelicato, Kenneth Krause, Tom Luckey, Karylene Mann, David L. Reid, Edward G. Schroeder and Barbara Wallace.

Professor Receives Grant

Dr. David Fries, professor of medicinal chemistry, has received a \$50,000 grant to study a plant toxin which may be related to the cause of Parkinson's Disease.

The Academic Research Enhancement Award, a two-year federal grant sponsored by the National Institute of Environmental Health Sciences, will fund Dr. Fries' research on the toxic agent in the Genus *Centaurea* (star thistle), a plant common to the dry regions of the central valley.

"When horses eat this plant, they develop a toxic syndrome which makes them lose part of their brain function," explains Dr. Fries. "This syndrome is similar to Parkinson's Disease which affects humans. We're going to isolate this toxic component and test its neurological effect on horses and other animals. Then we will see if there is a connection to humans."

Choir Tour Planned

A preliminary schedule for the 1987 A Cappella Choir tour from Feb. 8 to 13 has been announced by the Conservatory of Music.

Alumni and friends of the University are invited to attend concerts in their areas. Detailed information is available from the Alumni Office.

The schedule: Sunday, Feb. 8, Los Medanos Jr. College in Pittsburg, 2:30 p.m.; and St. Andrews Presbyterian Church in Lafayette, 7:30 p.m.; Monday, Feb. 9, Robert Lewis Stevenson School in Pebble Beach, 7:30 p.m.; Tuesday, Feb. 10, Hanford (location to be announced), 7:30 p.m.; Wednesday, Feb. 11, Clovis West High School in Clovis, 7:30 p.m.; Thursday, Feb. 12, Yuba College in Marysville, 7:30 p.m.; Friday, Feb. 13, Reno (location to be announced), 7:30 p.m.

Engineering Receives Electron Microscope

A scanning electron microscope with a magnification capacity of 70,000 times has been acquired and is now fully installed in the School of Engineering.

The microscope was acquired last spring through a \$99,000 grant from the Ralph M. Parsons Foundation. According to Dr. Rod Stroud, School of Engineering, possession of the instrument puts UOP in an elite class.

"This is the only university I know of where an undergraduate can get their hands on an electron microscope," says Dr. Stroud. "Usually, graduate students are the only ones with access, and even they have to wait awhile."

The School of Engineering also received a grant from the Parsons Foundation for a Dynamic Test System, an instrument for testing materials in motion.

Cooking Romanticized at UOP

"Romancing the Cookbook: Passions of the Palate," a special cooking celebration held at UOP on Nov. 1, certainly lived up to its billing as Stockton's Culinary Event of the Year. (It also proved that too many cooks don't always spoil the broth!)

The daylong program, which was a benefit for the UOP library, included discussions and demonstrations by some of the top cooking experts in the country. Included was a live radio

broadcast of "KCBS Kitchen" from Long Theatre.

Noted speakers included Jerry DiVecchio, home economics editor for *Sunset Magazine*; Gerald Asher, wine editor for *Gourmet Magazine* and columnist for the *San Francisco Chronicle*, and Lois Tlusty, assistant publications manager for the Betty Crocker Food and Publications Center.

Conservatory Honors Dehning

Conservatory of Music alumni are invited to a three-day celebration honoring Dr. William Dehning's 15 years at the University.

The celebration will begin on Friday, Jan. 30 with a three-day conducting workshop led by Dehning and Dr. Lois Harrison. The workshop, through the use of video equipment, will focus on improving visual presentations. Hours will be 7-10 p.m. on Jan. 30; 9 a.m.-noon, 2-5 p.m., and 7:30-9 p.m. on Jan. 31, and 10 a.m.-12:30 p.m. and 2-4 p.m. on Feb. 1. Students can earn one unit of University credit.

The celebration continues on Saturday, Jan. 31 with a banquet in the Regents Dining Room at 6 p.m. After dinner, there will be a read-through of Haydn's "Mass in Time of War" (C Major) in the Rehearsal Center.

Registration deadline is Jan. 19. For more information, call Lois Harrison at 946-2408 or the Conservatory of Music at 946-2415.

In Memorium

Ovid H. Ritter, Jr., a former student and son of past UOP executive vice president Ovid H. Ritter, died recently in Oakland.

A member of Omega Phi Alpha fraternity while at Pacific in the late 1920s, Ritter went on to become executive vice president of the Parr-Richmond Terminals Corporation. He was a member of Rotary International and the Berkeley Commons Club. He served as Lt. Commander in the Navy during World War II.

Matching Gifts Help UOP Grow

by K. Scott Sheldon
Director of Corporate and Foundation Relations

One of the most popular and satisfying ways to contribute to the University of the Pacific is to have your gift matched by your employer. During the recently completed 1985-1986 academic year, 238 gifts from alumni and friends of the University were matched by 103 American companies.

While the overall contributed income to UOP increased by some 10 percent last year, the growth in matching gift income was an astounding 52 percent. This means that more individuals were having gifts they made to UOP matched by their employers and those that contributed were making larger gifts.

Each year, the number of companies that match employee gifts to higher education in the United States increases by about 10 percent. And, in many cases, those companies that already have an established matching gift program are broadening this type of support to help nonprofit organizations other than colleges and universities.

Companies most often match employee gifts on a one-for-one ratio. However, a significant number of companies match gifts based on a two-for-one, or sometimes even a three-for-one ratio. One company even matches on a five-to-one basis!

Obtaining a matching gift from your company is really very easy. When you send your annual gift to UOP, attach a completed matching gift form, usually no more than one page in length, with your contribution. We then complete the necessary informa-

tion and mail it back to your employer. Usually, within four to eight weeks, your employer sends its matching gift to UOP.

Typically, the matching gift forms are available from your employer's personnel or payroll office. In some cases, mostly in larger companies, there is an individual who holds the title of "Matching Gifts Officer." Also, in many instances, companies will match gifts to UOP made by spouses, so although you may not work for a matching gift company, it is permissible to have your spouse's company match your gift to the University.

Ten companies, combined, provided \$53,800, or 63 percent of all matching gift income to UOP in 1985-1986. These companies, ranked by size of total giving, are GrandMet USA, Inc., FMC, Wells Fargo Bank, Gannett Newspaper Foundation, New York Life Insurance Company, Newha Land & Farming Company, Fireman's Fund American Foundation, John Deere Foundation, BankAmerica Foundation and Chevron USA, Inc.

In addition, a number of companies matched more than one gift to UOP. The following companies matched the most gifts to UOP: GrandMET USA, Inc., 19; Chevron USA, Inc., 11; BankAmerica Foundation, 8; FMC, 7; Pacific Telesis Foundation, 7; Gannett Newspaper Foundation, 6; GTE Communications Products Group, 6; IBM Corporation, 6; New York Life Insurance Company, 6, and Wells Fargo Bank, 6.

Here are some enlightening statistics about company matching gifts that were made to UOP last year:

	1984-1985	1985-1986
Number of Companies That Matched Gifts	87	103
Number of Gifts Matched by Companies	225	238
Total Corporate Support Through Matching Gifts	\$56,800	\$86,300
Largest Single Gift Matched	\$3,000	\$4,000
Smallest Gift Matched	\$10	\$25

Fifty-six companies matched employee gifts both in 1984-1985 and 1985-1986. Of these 56 companies, 7 renewed their support at the same level, 30 increased their giving and 19 decreased their support.

It is also interesting to note how funds derived from matching gifts were allocated to various programs at the University. The following chart illustrates the number of gifts made to various University fund accounts and the percentage of total funds contributed to each account. Please note that gifts are allocated to the account specified by the individual making the original gift.

Fund Account Name	Number of Gifts Matched	Percentage of Total Funds Matched
General Unrestricted	133	33.44
Pacific Athletic Foundation	57	41.32
Library	21	12.86
Scholarships	6	4.15
Memorial Gifts	4	3.78
School of Pharmacy	4	1.36
School of Engineering	4	1.24
School of Business and Public Administration	1	1.18
KUOP and Miscellaneous	8	.67
TOTALS	238	100.00

Big Year for Planned Giving

by Thomas W. Mooney, II
Director of Planned Gifts

In 1985-86, the Office of Planned Giving recorded one of its biggest fund raising years ever by bringing \$1,556,574 into the current budget and permanent endowment of the University.

Twenty-seven gifts totaling \$506,813 were received from estate settlements during the year.

Five lifetime gift annuities totaling \$527,761 were divided between capital projects and current budget support. Another \$406,000 was placed into reserves.

Nearly \$116,000 was given to UOP for the University of the Pacific Pooled Income Fund #1 or for Charitable Remainder Unitrusts.

Additionally, 25 alumni and friends informed the Planned Giving Office that they will include the University in their respective wills. While the dollar amount of these future gifts was not indicated, it is estimated (based on the average dollar amount of bequests received in the past 10 years) that the 25 future bequests would provide nearly a million dollars for the support of the school's programs in future years.

At the present time, the Office of Planned Giving has indications from nearly 200 alumni and friends that they plan to leave part of their estates to UOP. All alumni are urged to consider including UOP in their wills.

For further confidential information about bequests, wills and planned gifts contact the Office of Planned Giving, Thomas W. Mooney II, Director, (209) 946-2501.

UOP Pooled Income Fund: A Great Way to Give!

by Thomas W. Mooney, II
Director of Planned Gifts

Investors in the University of the Pacific Pooled Income Fund #1 continue to smile every 90 days or so when the mailman brings them their most recent income check from the fund. They all say it sure is nice to be receiving a check from UOP!

In the last 12 months the market value of the Pooled Fund has increased 13.6 percent. The rate of return for the second quarter of 1986 (ending May 31) was 10.04 percent, and the rate of return for the most recent quarter (ending Aug. 31) was 9.93 percent.

Investors can enter the fund with a gift of \$5,000 or more, and once they're in the Fund, they can make additional investments with a minimum of \$1,000.

All this is to say that the University of the Pacific Pooled Income Fund #1 is a very sound and very good investment which will ultimately help Pacific continue to be a great university!

Commentary

5

Philanthropy:

Dr. Ernest W. Wood, Assistant Vice President for Development, discusses the tradition of giving — its history, its status under the new tax laws, and its role as the key to UOP's future.

Dr. Ernest W. Wood

Maybe you didn't notice, but Nov. 15, 1986 was declared by an act of Congress as the first National Philanthropy Day in U.S. history. Although philanthropy has been alive and well on this continent since the time settlers first arrived, we seldom look at its enormous influence on the development of American society, let alone UOP.

The word philanthropy actually comes from two Greek roots, "philo and anthropos," meaning "love of mankind." One must admit that giving time and money obviously has to be motivated by some powerful force within the human spirit, since people generally never have enough of either. The voluntary act of giving money away with the intent to benefit others has erected temples, built universities, funded wars, preserved the arts and changed the course of history. It can be traced as far back as 6,000 years to man's earliest records of civilization in the Egyptian's "Book of the Dead."

Although Congress has only recently established the first National Philanthropy Day, U.S. philanthropy nearly equals the gross sales of Exxon, Texaco, Shell, Mobil, Arco, Union 76 and Standard Oil combined. It exceeds the gross sales of G.M., Ford or Chrysler. Giving in the U.S. almost reached \$80 billion last year. Over 90 percent of that amount came from individuals through gifts and bequests! Here are the 1985 U.S. giving figures as reported by the American Association of Fund Raising Council:

1985 Philanthropy

Total Giving 1985: \$79.64 billion

Individuals	82.7%
Bequests	6.5%
Foundations	5.4%
Corporations	5.4%

Distribution as Percent of Total

Religion	47.2%
Health & Hospitals	14.1%
Education	13.8%
Service	10.7%
Arts & Humanities	6.4%
Civic & Public	2.8%
Other	5.0%

Robert W. Woodruff, one of America's most generous philanthropists, once said, "Making money was the easy part, giving it away is the hard part." That's an accurate statement. With all the appeals people receive from worthy causes each month, it's often difficult to decide how much to give to the United Way, the church, UOP or local community projects. And, if you don't think your gift is important, remember that over half of the 1985 U.S. gift total of \$80 billion came from people with incomes of \$20,000 or less. Each gift adds up!

What does all this talk of philanthropy have to do with the new tax laws and UOP? The new tax laws involving gifts of appreciated property, non-itemizers and new tax rates do affect the tax treat-

ment or cost of making gifts. Some charitable and non-profit groups are very concerned about the new tax laws and have come up with a few gloomy predictions, especially as the laws relate to private independent colleges and universities. The history of philanthropy, however, reveals that giving has continued to increase during depression, economic reverses, tax law changes and other such factors. The truth is, giving is usually a habit of the heart, not a tax calculation.

UOP's Development Office encourages alumni and friends to make gifts, especially of appreciated property (real estate, stocks, etc.) before the end of 1986 to obtain the best tax advantage, but we don't see the new tax law altering the human spirit or its desire to help others. The professional staff at the University would certainly welcome the opportunity to serve UOP's donors with tax-wise giving advice for 1986 — please phone (209) 946-2501 or 946-2503 or write to the Office of Development at UOP. In addition, the University's planned gift counselors will make every effort to provide the best information available to alumni and friends on planned gifts or estate gifts.

UOP, California's first chartered institution of higher education, has experienced some very difficult financial times during its 135-year history. Its progress, strength and accomplishments have not come about because of tax laws, but rather because of individuals who believed in its mission, sacrificed to achieve objectives and refused to allow present circumstances to affect their love and loyalty to UOP and its future. Someone once said, "The most rewarding use of life is to spend it for something that will outlast it." The University of the Pacific continues to advance and make progress on a number of fronts because of the many generous people who are part of this great Pacific family. Philanthropy is a key to UOP's future.

Those who believe in giving support to this University will continue to move her forward.

Winston Churchill said, "We make a living by what we get, but we make a life by what we give." Your personal philanthropy can make an even greater University of the Pacific.

Sports

The men's and women's basketball teams once again face a bumpy road in the tough Pacific Coast Athletic Association. However, both teams are led by coaches who stress desire and determination, so, win or lose, the action promises to be electric!

by Jeff Minahan

Women Optimistic in Tough PCAA

When it comes to slogans, the UOP women's basketball team cannot even shout "We're number two. . . so we try harder!" But they can say "Nobody tries harder!"

Despite their disappointing 11-17 record last year, the Lady Tigers displayed unrelenting effort and determination playing in one of the country's toughest conferences. This intensity has become a trademark of Tiger teams under Julie Sullivan, UOP's fiery coach of the past three years.

Trying harder produced tangible results for Sullivan's charges last season. Earning a berth in the PCAA Tournament with a 5-9 conference record, UOP reached post-season competition for the first time in its 11-year history.

Photo by Bill Scales

With the graduation of key starters from last season, center Gretchen Meinhardt will carry much of the scoring and rebounding load.

Sullivan hopes the momentum of last year's improvement (from a 7-20 record in 1984-85) will carry her team up the ladder of the tough PCAA, which features three nationally ranked squads, including potential No. 1 Long Beach State. And although graduation took two key players — all-time UOP scoring leader Janet Whitney and potent sidekick Janet Otto — Sullivan believes her young team will make a strong move.

"We're brand new," admits Sullivan. "We're starting over — we lost a lot and we have a lot to make up. However, with our youth comes enthusiasm."

Sullivan bases her optimism on a talented trio of recruits: Debbie Geyser, Julie Szukalski and Karen Martin.

Geyser, a junior transfer from Delta College, could become an immediate scoring threat in the UOP backcourt. Szukalski and Martin were all-conference and all-section selections for their prep teams in Los Altos and Burney, respectively. The freshman duo are expected to provide valuable early-season contributions underneath.

These newcomers will not overshadow a strong cast of veterans, who are led by center Gretchen Meinhardt. A junior, Meinhardt posted impressive averages of 10.3 points and 5.8 rebounds last year and is expected to up those figures with the absence of Whitney and Otto.

Playing key roles in the backcourt will be sophomores Michelle Sasaki and Prim Walters. Both were starters last year and should continue their floor leadership roles.

Sullivan promises that this edition of Lady Tigers will once again exemplify her trademarks of aggressiveness, hustle and intensity.

A highlight of this season will be four home doubleheaders with the men's team in the Spanos Center: Saturday, Dec. 6, women vs. Loyola Marymount, men vs. St. Mary's; Saturday, Jan. 17, women vs. Nevada Las Vegas, men vs. Utah State; Monday, Feb. 9, women vs. UC Irvine, men vs. Nevada Las Vegas, and Saturday, Feb. 14, women vs. Long Beach State, men vs. New Mexico State.

All other UOP home games will begin at 7:30 p.m. in the UOP Main Gym.

Men Have Winning Outlook

Chinese philosopher Confucius once asked, "Is it not a joy to practice that which we have learnt?"

Those words of wisdom hold special meaning for UOP head basketball coach Tom O'Neill and his 1986-87 team. Last year's squad learned to win, posting a 17-14 record for the school's first winning mark since 1980-81. O'Neill believes this year's team will practice and perfect the knowledge they have gained.

"Our outlook is very good," says O'Neill, who is entering his fifth year at UOP bolstered by a two-year contract extension he signed after last season. "We feel very optimistic about our nine returning players. Seven of them started 12 games or more and all

Domingo Rosario's recovery from a severe leg injury will play a big part in Tiger fortunes this season.

of them saw regular action. With the confidence they gained winning games last year, we should be a solid team."

However, Tiger hopes may very well hinge on whether one returning player, Domingo Rosario, will actually return.

Rosario, a 1984-85 PCAA All-Freshman Team selection and UOP's first freshman MVP, was in the midst of a torrid streak during his sophomore season last year when he suffered a fractured left leg in an auto accident. Although he has made amazing progress since incurring the career-threatening injury in February, Rosario

may be forced to sit out this season. "The condition of Domingo's leg as the season gets underway is really the key question among our returning players," notes O'Neill, who says the decision whether or not to red-shirt the 6-foot-5 junior forward will be made before the conference season starts in January.

With or without Rosario, O'Neill expects to field a team of scrappy and quick players who use a controlled passing game, play end-to-end defense and run a fast-break-oriented offense. "One of our strengths is depth," says O'Neill. "I think we've got some strong, quick athletes — not just two or three, but six or seven who can run, defend and rebound."

Much of this depth is at forward, where Rosario will be backed by Karlwin Matthews, a 6-5 senior who started 19 games last season, and Willie Tatum, a 6-7 sophomore. Three Freshmen may make immediate impact, led by 6-7 Victor Minniefield, Sacramento's high school player of the year last season. David Michaelson and Scott Hemsath, both 6-8, are a pair of smooth shooting big men.

There is talent stacked up at the guard positions, as well. Battling for the starting point guard spot are 6-3 juniors James Gleaves and Roberto Modesto, who shared the team's Most Improved Player award last year, and veteran senior Kyle Pepple, who has been battling an early-season hip injury. Three towering 6-5 shooting specialists are vying for the off-guard position: juniors Christian Gray and James Ray Richardson and freshman Dan Embick, a promising prospect who led Oregon's high schools in scoring last season.

As with many PCAA teams, the Tigers do not have a genuine center. But the incumbent pivotman, Brent Counts, is their most experienced and established player. Counts' modest averages of 8.6 points and 4.6 rebounds are expected to rise dramatically this season. The four-year veteran will be backed by the team's tallest player, 6-11 Holger Fuerst, a freshman from West Germany.

O'Neill will miss the talents of Rich Anema and Drew Rodgers, two long-time mainstays lost to graduation. But the UOP coach hopes the blend of veterans and newcomers will keep the Tigers on the same roll with which they ended last season, when they won seven of their last ten games and five of their last six before the PCAA Tournament.

"I think the hardest thing to teach is how to win," says O'Neill. "Everybody wants to win, but wanting to win and knowing how to win are two different things. We learned that last year. You can talk all you want about confidence and playing better, but if you continue to lose, you are going to lose the confidence. But when you win, you begin to believe in yourself and your team. Our players had a chance to see that last year. Now we have to get them to carry it over and retain the lesson."

The Fulbright

7

UOP faculty gain international knowledge and bring worldwide honor to the University through this prestigious scholarship program.

by Laurie Holmes and Catherine Monty

Prim Walters

Brent Counts

Karlwin Matthews

In 1946, a bill proposed to Congress by Senator William Fulbright was passed making the proceeds from surplus war materials available for scholars interested in studying and teaching abroad. Since then, the program has grown from a handful of scholarly awards to approximately 1,000 grants awarded annually to scholars who teach in countries around the world.

The Fulbright Scholarship Program awards grants in categories for graduate students, primary and secondary educators, and university lecturers and research scholars. The latter category, the Senior Fulbright Program, is administered by the Council for International Exchange of Scholars. Roy A. Whiteker, Dean of College of the Pacific, directed the council before coming to Pacific.

"This is one of the best things the U.S. Government has ever done," says Whiteker. "Originally, it seemed as if America was exporting their know-how abroad and that foreign students were coming here to study and compete with Americans. What we've tried to do over the years is show that it's really a two-way street. We have just as much to learn from the international students and scholars as they have to learn from us."

Various private, government and international grants have poured into the popular program to include many countries that were initially excluded due to lack of funds. Approximately 500 foreign scholars come to the United States each year through bi-national Fulbright Commissions located in their own countries.

There are several steps in the long selection process, which begins with roughly 2,500 applications from American scholars for the approximate 500 openings available in 60 countries. The applications are first reviewed by the council and a panel of faculty members from various institutions representing specific disciplines. The applications are then sent to a board of representatives from the geographical regions of interest.

Following this elimination process, the council sends its nominations to either the bi-national Fulbright Commission or U.S. Embassy located in the selected country. The Commission or Embassy, along with the country's university, decides whether the scholars will receive awards. The last step of the process requires that the country's selection go through a Presidentially appointed Board of Foreign Scholarships. This board then makes the final determination.

This extensive selection process can take as long as nine months, which Whiteker feels may discourage or eliminate some prospective applicants.

"The process is long and cumbersome and international situations sometimes occur at the last minute which completely turn things around," says Whiteker. "Many applicants drop out because their own universities must know if they'll be taking a leave of absence or teaching classes the following semester."

UOP has had a long history

of Fulbright Scholarship award winners, many of whom have received the grant more than once. Drama Professor Sy Kahn is one of very few scholars to earn four awards, the last one in 1985-86. The 1986-87 UOP Fulbright Scholars are Carolyn Clark from the School of Education, who will be teaching in Yugoslavia, and Dr. Ted Takaya from the College of the Pacific, Modern Language and Literature, who will be teaching in Japan.

Whiteker notes that for such a small institution, UOP has had an unusually large number of Fulbright award winners — 29 since Clifford Hand earned UOP's first Fulbright in 1949, and six in the past two years.

"In terms of population," says Whiteker, "one would expect California to receive about 10 percent of the grants per year. For the past two years we have received three award winners per year, which is somewhat less than one percent of all awards but still an outstanding record for such a small school."

UOP Fulbright Professors

Carolyn Clark	Yugoslavia	1986-87

KEEPING IN STEP WITH A GROWING INTEREST IN INTERNATIONAL AFFAIRS OCCUR-
ING IN THE UNITED STATES, THE UNIVERSITY OF THE PACIFIC HAS ESTABLISHED A NEW SCHOOL OF INTERNATIONAL
UNIVERSITY-BASED UNDERGRADUATE SCHOOL OF ITS TYPE IN THE WEST!

THE SCHOOL OF INTERNATIONAL STUDIES

UOP's new School of International Studies, which will accept its first students next fall, will offer the bachelor of arts degree with majors in International Affairs and Commerce, International Relations, and International Studies. Each major will require at least one semester of study abroad.

All three of its programs will be inter-disciplinary and will unify, in a single school, many of the programs now being offered in other divisions of the University.

"The idea behind this school is to create a genuinely integrated program in the study of international affairs," says Cort Smith, director of International Programs. "We currently have a lot of fine courses and programs in international studies, but they are all divided into separate departments. We thought we could improve the situation by bringing the various international faculty members into one faculty center and better relating international courses to each other."

The curriculum of the new school, designed to prepare students for international careers and graduate study, will combine elements of economics, business, political science, history and language. Faculty members teaching in the new school will have joint appointments with the College of the Pacific.

"I think that sharing the staff is inevitable, and that's really the way it ought to be done" says Dean of COP Roy Whiteker. "For example, we have taught courses in international and developmental economics for some time. Why hire new faculty in economics when we have already developed a high level of expertise in that area?"

Smith agrees that cooperation between COP and the new school is essential.

"I think the advantage of having joint appointments is that they help with the internationalization of programs across the whole campus," says Smith. "We do not want to abstract the internationals out of other programs and thereby diminish the international features of on-going programs."

The new School of International Studies will incorporate an existing extensive program of overseas study. UOP students have the option of study abroad at more than 130 locations in 40 countries. The school will also include already existing programs — cross-

cultural orientation programs prior to departure and re-entry programs for returning students.

"There are a few things that we have already done that have been enormously successful," adds Smith. "We are almost certainly the only school in the United States that has a cross-cultural orientation program required of everyone going abroad. And, at the request of students a few years ago, we set up a two-unit course that deals with the continuing process of learning from the overseas experience after returning home. I think those are two programs that have been enormously important and will continue to add greatly to the new school."

Each of the three major programs within the new school will have a common core of requirements. Included will be an introduction to world issues and problems, four semesters of foreign language or equivalent proficiency,

perspectives in world history, political geography, cultural anthropology, at least one semester abroad and an integrative Senior Seminar. The University's general education requirements must also be met.

The International Affairs and Commerce major will be designed to provide students with basic business skills to supplement a wide exposure to international issues in politics and economics. Required courses will include Introduction to Business; Microeconomics and Macroeconomics; U.S. Federal Government; Statistics; International Trade, Finance and Politics; Accounting, Marketing; Administration and Behavior and International Business.

The International Relations major will emphasize the relationship between international politics and economics. Requirements include Introduction to Political Science, U.S. Federal Government, Microeconomics and Macroeconomics, International Politics, Trade and Finance, and courses in international organizations or political economy, comparative politics, foreign policy and other international relations courses.

The International Studies major will allow students more flexibility in designing programs. All students will work closely with a faculty advisor in developing an individualized program. Requirements include Principles of Economics or Microeconomics, International Economic Relations, two courses on specific nations, two courses on a specific global region, one course on the interaction between global regions and one course comparing regions. The international studies major will require a full year abroad in an academic program.

Although the office for the new school will be located in El Centro, the study abroad office will remain in the Bechtel International Center.

"The study abroad office will stay in the Bechtel International Center partly because it is firmly established there and partly because the Bechtel International Center has always had more than just a foreign student function," says director Smith. "I feel the character of the center would be lost if we start removing the non-foreign student functions."

A pioneer in international education, UOP established two liberal arts colleges in the 1960s that emphasized in-

tion, Pharmacy, Law and Dentistry, a
graduate school, and University College,
which offers undergraduate programs
for adult re-entry students.

"I think the main advantage of this
new school" says Smith, "is simply that
we will be able to do what we have been
trying to do much better — that is, to
create a genuinely integrated, interdis-
ciplinary program. What we have been
doing, and doing well, is not that dif-
ferent from what many other univer-
sities offer. We feel that we can do it
much better within our new professional
school."

and North America with the curriculum
taught in Spanish. Interest in interna-
tional studies has since grown on a na-
tional level, prompting the establish-
ment of the new school.

"If you look around you can see
various things happening in many parts
of the country — a general 'beefing-up'
of international studies," says Whiteker.
The University of California at San
Diego is developing a new international
program at the graduate level, but there
are very few undergraduate programs of
this nature in the United States."

"The evidence that we have seen in
schools, locally and nationally, indicates
an increasing number of students who
want to study in international pro-
grams," says Smith. "There has been a
significant upturn in the number of stu-
dents seeking this kind of program."

The School of International Studies
will become the 10th academic division
of the University of Pacific. UOP is now
comprised of COP and the professional
schools of Education, Engineering,
Music, Business and Public Administra-

Complementing the new School of International Studies, UOP's existing services and programs have long kept the University at the forefront of international education.

INTERNATIONAL OPPORTUNITIES

Every year more and more UOP students are studying abroad as a part of their educational experience. They have a choice of over 130 programs from more than 40 countries. They not only earn credit toward graduation and fulfill general education requirements, but students pay no more to study abroad than they would to stay in Stockton!

Helping students with their program selection and application procedures for studying abroad is the task of the Office of International Programs. The Office also maintains a growing library of international travel, employment, and financial support materials for students and faculty.

Requirements for each study-abroad program vary, with many programs open to sophomores as well as juniors and seniors. The programs differ in length from one semester to a summer session to a full academic year. Many programs incorporate such opportunities as homestays with local families, independent study, travel and internships.

In order to qualify for study abroad, a student must participate in "Cross Cultural Orientation" prior to departure. This two-unit course is designed to prepare students for study in other countries, and foreign students at UOP are encouraged to enroll as well, making it one of the few such integrated and academically-based orientation programs anywhere. Topics include American values and assumptions, cross-cultural communication, cross-cultural adjustment and problems, and research on the host country.

Another aspect of UOP's innovative international offerings is the Office of International Services. The office serves UOP's 400 foreign students who represent 55 countries and are enrolled throughout each of the University's colleges. It assists these students in non-academic areas such as orientation, immigration advising, personal and financial counseling, emergency loan approval, and provides numerous intercultural activities.

International focal point for UOP, the Bechtel International Center, was made possible by a gift from the Stephen D. Bechtel and Paul L. Davies, Jr. families. Its facilities include two spacious lounges, a seminar room, increased work space for international programs and services and a kitchen/activities area. The center is designed to facilitate international functions for both American and foreign students.

Another international dimension is offered by McGeorge School of Law, which has conducted international law programs in Europe since 1974. The

international programs are incorporated as a non-profit, educational society under the laws of Austria and maintains European headquarters at the University of Salzburg Faculty of Law. Summer programs are offered in Edinburgh, London, Salzburg, Vienna and Budapest.

McGeorge also operates a unique post-graduate internship program which places young lawyers in training posts throughout Europe, the Far East, Egypt and the United States as an integral part of their work leading to a degree in Advanced International Legal Studies or the Master of Laws.

The University of the Pacific is proud of its innovative history of international programs and, as demonstrated by its offerings and the formation of the new School of International Studies, this innovation will surely continue.

Alumni Association Announces 1986 Distinguished Service Awards

The Pacific Alumni Association presented its 1986 Distinguished Alumni Awards to outstanding UOP graduates in the areas of public and professional service, university contribution, young alumni achievement and family involvement. The awards were presented on Oct. 25 at the association's homecoming luncheon.

Photo by Pat Krohn

William L. Cunningham

WILLIAM L. CUNNINGHAM

William L. Cunningham, Governor George Deukmejian's Assistant for Education, received the Public Service Award. A 1950 graduate, Cunningham has served as the governor's assistant since 1983. Prior to that position, he was an elementary and high school teacher, superintendent for various school districts, and executive director of the Association of California School Administrators. In 1982, he received the Association of California School Administrators' Distinguished Service Award.

A native of Santa Rosa, Cunningham has also served on numerous school boards and has been active in many local civic organizations. He served as president of the University of the Pacific Alumni Association in 1965.

Photo by Pat Krohn

Ralph Guild

RALPH GUILD

Ralph Guild, founder and president of New York-based INTEREP, the country's largest radio sales organization, earned the Professional Service Award.

Guild has been involved in radio sales for more than 35 years. In 1985, he formed INTEREP, a holding company for five national radio firms. The company, which has 50 offices and 165 salespeople in 16 cities, placed over \$250 million in radio advertising last year. In July 1985, *Adweek* quoted the owner of a major Los Angeles station as saying, "Ralph Guild has revolutionized the way radio time is bought and sold. . . He's a real visionary force in our industry."

Guild was a radio-speech major at Pacific in the mid-1940s and he credits much of his early inspiration to John Crabbe, who headed UOP's radio program at the time.

Photo by Pat Krohn

Michael S. Policar

MICHAEL S. POLICAR

Dr. Michael S. Policar, an obstetrician-gynecologist who is active in various professional and civic organizations in San Francisco, earned the Young Alumnus Award.

Dr. Policar, who graduated from UOP in 1972 with a degree in chemistry, is an assistant professor of obstetrics gynecology at the UC San Francisco School of Medicine and medical director of the Women's Center at San Francisco General Hospital. He is also medical director of Planned Parenthood in the Alameda/San Francisco area. This past spring he was elected as chairman of the Junior Fellow College Advisory Council of the American College of Obstetricians and Gynecologists.

Dr. Policar is co-author of "The Complete Guide to Pregnancy Testing and Counseling" and has written several scientific journal articles.

THE SCHRADER FAMILY

If the appreciation of an educational experience is measured by the number of family members who attend an institution, then the Schrader family of San Jose are more than satisfied with the University of the Pacific. Fourteen members of the Schrader family — covering four generations — have attended UOP since Alpheus Richardson began the affiliation in the 1890s as a member of the school's board of trustees. In return for their substantial devotion, the Schraders have been recognized with the Alumni Family Service Award.

Richardson's daughter, Avyette E. Richardson Schrader, graduated in 1913, and her son, David Richardson Schrader, earned his degree in 1949. Two of Alpheus' three great grandchildren and their spouses have also graduated from UOP: David Robert and his wife, Kathleen, in 1970 and 1972 respectively, and Nancy Schrader Garrett and her husband, Kenneth, 1972 and 1970. Uncles, cousins and a nephew of David Richardson Schrader have attended UOP as well. In addition, his aunt served as President Tully Knoles' secretary in the early years of his administration.

In honor of their generous support, the School of Business and Public Administration named one of the new classrooms in Weber Hall after the Schraders.

The Schrader Family

Photo by Pat Krohn

UOP student Denny Stillwell accepts Martha Jones' award.

MARTHA JONES

Martha Jones, a 1933 UOP graduate, earned the University Service Award with help from her husband Clarence. The couple has donated almost \$500,000 to the University and coordinated many alumni activities from their Reno home.

Charter members of the Patrons of Pacific scholarship program, the couple has helped establish four student scholarships and generously supported the University's chaplaincy program and library capital campaign. Martha has regularly organized UOP club functions in the Reno area and has aided the UOP A Capella Choir during its trips to Nevada. In appreciation of her efforts, the students and faculty of the School of Engineering named one of its robots, "Martha II," after her.

ROGER BAER

Roger Baer was a four-year letter winner and an all-conference end who played for Coach Stagg from 1933 to 1936. After coaching at Pacific under Stagg in 1938 and later at Ripon High School, Baer went on to a successful 37-year career with the Santa Cruz School District Physical Education and City Recreation Departments.

DR. EARL KLAPSTEIN

Dr. Earl Klapstein lettered four years and was an all-coast end at Pacific under Stagg in the early 1940s. After playing professional football for the Pittsburgh Steelers, he attained success coaching football at the

high school, junior college and university levels. His teams included Manteca High School and Stockton College (now Delta College). He went on to become a leading

California collegiate administrator, highlighting his career with a term as chancellor of the Los Rios Community College District in Sacramento.

AA Stagg Award Winners

The Amos Alonzo Stagg Awards were presented to two UOP alumni at the Block P Society Dinner held on homecoming weekend at the Hilton Hotel. The awards are given annually to former UOP varsity athletes who have gone on to distinguished lives best representing the ideals and legacy of Amos Alonzo Stagg.

"Winning isn't worthwhile unless one has something finer and nobler behind it.

When I reach the soul of one of my boys with an idea or an ideal or a vision, then I think I have done my job as a coach."

Amos Alonzo Stagg

Homecoming '86 Year of the Tiger

Parade grand marshals President and Mrs. Stanley McCaffrey greet the spectators.

John Jensen and Patty Fellows reign as the 1986 Homecoming King and Queen.

Every child loves a parade.

The Homecoming Parade offered many lively and colorful sights for the crowds along Pacific Avenue.

PACIFIC • PACIFIC • PACIFIC

Clubs

LOS ANGELES

The Los Angeles Pacific Club, climaxing a successful summer which included two events — wine tasting and Hollywood Bowl Night — held a September meeting to elect officers and make plans for the balance of 1986.

Officers for 1986-87 will be: Mark Rogo, Chairman; Esther Decker Hebbard, President; David Beasen, Executive Vice President; Ed Koehler, Vice President, Events; Lewis (Lew) Ford, Treasurer; Kae Saunders, Recording and Corresponding Secretary; Ted Tiss, Publicity Chairman, and Steve Beck, Special Projects Chairman. A tailgate party for all alumni, parents and friends will be held on Saturday, Nov. 29, 4 p.m., at the Long Beach Memorial Veteran's Stadium prior to the Long Beach State/UOP football game. The club is selling entertainment/coupon books and "Tiger on Board" signs for your car. Pacificans in the Los Angeles area are urged to call Ed Koehler, (714) 599-5869, for information about joining the Los Angeles Pacific Club.

MARIN COUNTY

Alumni from Marin County have met with Kara Brewer to discuss the formation of a Marin County Pacific Club. They are planning a springtime wine and cheese tasting with Professor Roger Barnett, Department of Geology and Geography. For more information call Leslie Connarn, (415) 381-1226, or Doug Bilsborough, (415) 388-1581.

SOUTH BAY/PENINSULA

The South Bay and San Francisco Peninsula Pacific clubs joined boosters from Stockton to cheer for the UOP volleyball team in their match against Stanford at the Maples Pavilion. They also hosted a reception honoring President and Mrs. Stanley McCaffrey at the Tan Plaza Penthouse. In addition to the President's remarks, the program included a showing of the slide presentation, "The McCaffrey Years: A Retrospective." The next steering committee meeting will be held at Allison Bailey Johnson's home on Jan. 20. Everyone who would like to help plan 1987 events is welcome. For more information call Pam Dovala, (408) 554-8463.

FRESNO

Several Fresno alumni and numerous Stockton Volleyball Boosters enjoyed watching the UOP volleyball team's win over Fresno on Sept. 30. On Oct. 18 the Fresno UOP Club hosted a tailgate barbecue for over 300 rooters prior to the UOP-Fresno football game. It was the biggest turnout ever for a UOP event in Fresno in recent years. The Pacific Athletic Foundation was a tremendous help, and a happy time was had by all. A steering committee meeting is planned for Jan. 22 at the home of Janet Lanfranco Bunting, '80, to strengthen Fresno participation and spirit and to plan spring events. We need ideas and membership. Please contact Joretta Burlington, 435-9517, or Mary Stockdale, 252-8206.

EAST BAY

East Bay Pacificans who came to Homecoming Weekend enjoyed the group's pre-game tailgate picnic. The club will be hosting a reception in honor of Dr. and Mrs. Stanley E. McCaffrey in Pleasant Hills on Feb. 22. For more information call Cecelia Williams, (415) 687-0190.

NEW YORK

Thanks to Ralph Guild '50, recent Distinguished Alumni Award winner, New York Pacificans will gather at the Friars Club Dec. 4 for a reception honoring President and Mrs. Stanley McCaffrey. Participants will also discuss the possibility of forming a New York Pacific Club.

STANISLAUS

The Stanislaus Pacific Club Steering Committee met recently and decided to host a dinner with UOP Geology Professor Curtis Kramer. The dinner will take place on Friday evening, Feb. 6. Dr. Kramer will present a slide show titled "California, a State on the Move — Earthquakes." For more information call Dawn Messinger, 869-4471, or Margie Lipsky, 522-6161.

ORANGE COUNTY

The Orange County Pacific Club was formed recently at the home of Bob and Barbara Gaughan, '57, '60. The group decided to host a wine and cheese reception at the Bowers Museum on Dec. 7. Professor Roger Barnett will be there with his presentation, "The Art and Science of Wine." For more information on this and future events, call Mary Cunningham, (714) 641-5187.

HAWAII

The Hawaii UOP Club held a very successful dinner honoring President and Mrs. Stanley McCaffrey. At the recently-held election of officers, Robert Schneider, alumnus of McGeorge School of Law, was elected President; Barbara Sasahara, parent, Vice President and Treasurer, and Helen Brinkmann, COP alumna, Secretary. Also, the group plans to assist the Admissions Office at the College Fair. There will be a potluck dinner in February to plan 1987 activities. All UOP alumni, parents and friends are welcome. Please call Helen Brinkmann, 942-2448.

Memories

1930s GRADS HOLD REUNION

The following graduates of the late 1930s attended the recent homecoming events and Block "P" Dinner:

Rachel Becker '39, Geo Kip Bralye '38, Mary Bay Bear '37, Roger Baer '37 (received the Amos Alonzo Stagg Award), Howard John Cechini '37, Bobbin Gay Crabbe '39, John Crabbe '37, Wally Hallberg '36, Ed Koehler '39, Frank Nash '37, Dick Patriquin '39, Bud Savage '37, Doug Silva '37 and Marge Thompson '36.

The Carl Miller Classic golf event at Stockton Country Club on Homecoming Friday was attended by two foursomes from this era. The first was Bob Wicker '35, Bud Savage '37, George Truckel '35 and Jimmie Thompson '35; the other was Kip Bralye '38, Kick Pafriquin '39, Ed Koehler '39 and Bob Kientz '40.

Calendar

December

1

Collegium Musicum, George Nemeth, conducting.

3

Choral Christmas Concert with UOP Symphony, William Dehning, conducting.

4

First home Men's Basketball game vs USF.

5-6

Women's Basketball at Santa Clara Tournament.

6

Studio Presentation by Conservatory of Music of *Hansel & Gretel*, Edna Garabedian, directing.

12

UOP Concert Band Performance, Robert Halseth, conducting.

UOP PARENTS: Classes end.

15-20

UOP PARENTS: Finals week.

18-20

NCAA Volleyball Final Four at UOP.

SEASONS GREETINGS

January

11-12

UOP PARENTS: New Student Orientation.

13

Sculpture exhibition by Art Costa in UOP Gallery, through to Feb. 6.

14

UOP PARENTS: Classes begin.

19
